Astrology Time License Keygen Free Download For Windows [Latest-2022]

Astrology Time is a lightweight and intuitive software utility developed mainly for astrologists, but also regular people who wish to learn the zodiac time for a specific country or region of the world. The program is fairly simple to understand and work with, requiring a minimum amount of user input, namely the location, which can be selected from the dedicated menu, as it features almost all countries of the world, and the 'Time Zone'. The default location is England, London. After having selected the two elements, Astrology Time will automatically calculate and display the generated information in its main screen. It features a detailed account of the position of the 'Ascendant', 'Mid-Heaven', 'Sun' and 'Moon' on the Zodiac, including degrees, minutes and seconds, as well as the symbol for each sign. Moreover, the application also displays the current 'Moon Phase' and the 'Distance From The Sun', along with the corresponding 'Latitude' and 'Longitude'. Similarly, it displays the current time of the selected location down to the second and it is constantly updating, subsequently influencing the zodiac positions. However, users cannot calculate these items for any other moment than the current date and time, meaning that past or future information is unavailable. Astrology Time allows users to print the generated calculation so it can be used for other purposes, for instance divination. At the same time, it enables users to adjust the 'Text Size', varying from 'Largest' to 'Smallest', whichever best fits users' requirements. By clicking on the hyperlinks, users can obtain additional details about the meaning of each astrological position, which will open in their default web browser, on condition that they have an Internet connection. To conclude, Astrology Time is an interesting tool that allows users to calculate Zodiac positions for numerous locations throughout the world and work with the acquired information in various astrology or divination activities.
